

Google for Education

As you may be aware, Oceanside School District is a Google Apps For Education (GAFE) District. Google Apps consists of Google Drive, Sheets, Docs, Slide, Sites, Drive, Calendar, Gmail and Classroom. Google also provides other well-known services like Google Maps, Google Earth, the Chrome browser, and the Google Search engine. Using newly created Google accounts, all Oceanside School District students can have access to many of these services as well as a growing number of Google and Chrome apps and extensions. As part of Google's commitment to schools, students and staff have unlimited storage space in Google Drive. Students also have limited email access which will enable them to send/receive from within oceansideschools.org domain as well as access to receive mail from Microsoft and Apple for account creation and verification purposes.
